We still have no date for the start up of using the machine. There were discussions on the ramps from the shed.
- D. Courts update from Don. There is no water for cleaning under the benches. He will try to find out about getting water for cleaning purposes. We now have a lost & found on our website & the suggestion box has been moved to the top. Our 2nd round of clocks are starting to deteriorate. People are walking through the plants to get to their cars.

- F. Social update: discussion regarding using a Taco truck for our Dink & Drinks. Sheryl has investigated the cost & found one for \$450. Joyce has found one for \$300. We would charge registered attendees for food & give them wrist bands which would entitle them to food. Cost per attendee to be determined.
- G. Nomination for naming a group play Director was seconded & approved. Steve Simler will be asked to fill this position.
- H. Tournament update:

Battle of the Paddle will be held on Sept 25-26. Players will be paired by play level-men vs men & women vs women. Group Open play hosts will help to determine players' level. Budget for the tournament is \$250. It was determined that we should resend an email with definitions of levels of play. It was also determined that we should hold off on pursuing any outside tournaments as we have so many people trying to play on our courts at this time anyway.

Bocce/Pickleball Tournament on 9/11 is full with a waiting list.

- . New business: Anahid offered to sponsor any players from Engine 11 who want to use our courts on any day when there is an empty court.
