I came across a fun new word, Picklebility. Picklebility is a made-up term to describe one's pickleball-ability.

How can you maximize your Picklebility? For starters:

- Increase your knowledge of the game by learning the rules.
- Learn and practice fundamental techniques.
- Stay focused during a game.
- Have fun, it's just pickleball!

I'm looking forward to seeing everyone out on the courts,
Have a happy 4th of July!
