The Vote is in and it's a resounding YES for new Pickleball Courts!

It has taken over 5 years to accomplish the task of getting new designated Pickleball Courts. We want to thank the Tennis Club for allowing us to play on courts 5 & 6 during this process.

I want to give special thanks Nancy Keene for getting Pickleball started in the Villages and Don Jackson and Garry Grey who took on the project of the new courts. Many many hours were spent by these two guys pioneering planning meetings.

I also want to thank the Pickleball Ad Hoc committee for their efforts these past 2 years guiding and informing Villagers as to the progress of the project. They closely worked with the Pickleball Club and EVF.

I especially want to thank our anonymous donor who committed \$300,000 for the project. Without that contribution, it would have been very difficult to get these courts approved. We also thank all our contributors financially and manpower wise for this successful campaign.
