Another successful Pickle Up was completed last week. With the efforts of numerous Pickleball Club members, there were six fun evenings of play and instruction that resulted in many new pickleball players, club members and friendships. New groups have formed to get together for regular play.

The challenge now is to find available play time on the courts. There are Open Play sessions that are available for drop-in players. The best sessions for novice players are Thursday and Sunday at 10:30AM. Open Play sessions are often quite busy and individual play time is limited. The Pickleball Club's need for dedicated courts is apparent and increasing rapidly!
